

Remaining Space Shuttle Missions

Below are the approved target dates for the launches remaining in the Space Shuttle Program.

129 is the 31st shuttle mission to the International Space Station. Astronaut Nicole Stott will return to Earth aboard Atlantis.

STS-128

Launch Target: late August

Shuttle: Discovery

Duration: 13 days

Crew:

Mission Commander Rick Sturckow

Pilot Kevin Ford

Mission Specialists John "Danny" Olivas, Christer Fuglesang/European Space Agency, Patrick Forrester, Jose Hernandez and Nicole Stott/Expedition 20/21

Mission: Deliver the Multi-Purpose Logistics Module and the Lightweight Multi-Purpose Experiment Support Structure.

Info: STS-128 is the 30th shuttle mission to the International Space Station.

STS-129

Launch Target: Nov. 12, 2009
at 4:22 p.m. EST

Shuttle: Atlantis

Duration: 12 days

Crew:

Commander Charles Hobaugh

Pilot Barry Wilmore

Mission Specialists Robert Satcher, Michael Foreman, Randy Bresnik and Leland Melvin

Mission: Deliver EXPRESS Logistics Carriers 1 and 2

Info: The carriers hold two spare gyroscopes, two nitrogen tank assemblies, two pump modules, an ammonia tank assembly, a spare latching end effector for the station's robotic arm, a spare trailing umbilical system for the Mobile Transporter and a high-pressure gas tank. STS-

STS-130

Launch Target: Feb. 4, 2010
at 6:20 a.m. EST

Shuttle: Endeavour

Duration: 12 days

Crew:

Commander George Zamka

Pilot Terry Virts

Mission Specialists Bob Behnken, Nicholas Patrick, Kathryn Hire and Steve Robinson

Mission: Deliver Node 3, named Tranquility, and the Cupola, a robotic control station with six windows around its sides and another in the center that provides a 360-degree view around the station. At least three spacewalks are planned.

Info: This will be the 32nd shuttle station assembly mission.

STS-131

Launch Target: March 18, 2010
at 1:08 p.m. EDT

Shuttle: Discovery

Duration: 12 days

Crew:

Commander Alan Poindexter

Pilot Jim Dutton

Mission Specialists Rick Mastracchio, Clay Anderson, Dorothy Metcalf-Lindenburger, Stephanie Wilson and Naoko Yamazaki/Japan Aerospace and Exploration Agency

Mission: Deliver a Multi-Purpose Logistics Module filled with science racks to be transferred to laboratories on the International Space Station.

Info: Three spacewalks will include work to attach a

NASAfacts

spare ammonia tank assembly outside the station and return a European experiment from outside the Columbus module. This will be the 33rd shuttle mission to the station.

STS-132

Launch Target: May 14, 2010 at 3:05 p.m. EDT

Shuttle: Atlantis

Duration: 11 days

Crew:

Commander Ken Ham

Pilot Tony Antonelli

Mission Specialists Stephen Bowen, Michael Good,
Garrett Reisman and Piers Sellers

Mission: Deliver an Integrated Cargo Carrier and Russian-built Mini Research Module to the International Space Station.

Info: The second in a series of new pressurized components for Russia, a Mini Research Module, will be permanently attached to the bottom port of the Zarya module. The Russian module also will carry U.S. pressurized cargo. Three spacewalks are planned to stage spare components outside the station, including six spare batteries, a boom assembly for the Ku-band antenna and spares for the Canadian Dextre robotic arm extension. A radiator, airlock and European robotic arm for the Russian Multi-purpose Laboratory Module also are payloads on the flight. This will be the 34th shuttle mission to the station.

STS-133 or STS-134

Launch Target: July 29, 2010 at 8:45 a.m. EDT

Shuttle: Endeavour

Duration: 12 days

Crew: TBD

STS-133 Mission: Deliver Express Logistics Carrier 4 and critical spare components to the International Space Station

STS-134 Mission: Deliver Express Logistics Carriers 3 and the Alpha Magnetic Spectrometer to the International Space Station.

STS-133 Info: Spare parts including two S-band communications

Mission insignia for missions STS-129 to STS-134 have not yet been released. They will be added as they become available.

antennas, a high-pressure gas tank, additional spare parts for Dextre and micrometeoroid debris shields. This will be the 35th shuttle mission to the station.

STS-134 or STS-133

Launch Target: Sept. 16, 2010 at 1 p.m. EDT

Shuttle: Discovery

Duration: 12 days

Crew: Commander Mark Kelly

Pilot Gregory H. Johnson

Mission Specialists Michael Fincke, Greg Chamitoff,
Andrew Feustel and European Space Agency astronaut
Roberto Vittori

STS-134 Mission: Deliver Express Logistics Carriers 3 and the Alpha Magnetic Spectrometer to the International Space Station.

STS-133 Mission: Deliver Express Logistics Carrier 4 and critical spare components to the International Space Station.

Info: This will be the 134th and final shuttle flight and the 36th shuttle mission to the station.

On the sixth attempt, Endeavour launches July 15, 2009, on the STS-127 mission.
